

SERVICE & GARAGE EQUIPMENTS

NITROMAC was established in 2011 to design, manufacture and sell service equipment for automotive industry including;

- Hydraulic Rim Repair Machines
- Rim Cleaning and Polishing Machines
- Wheel Alignments
- Tyre Changers
- Wheel Balancers
- Hydraulic Platform Lifts
- Headlight Testers
- Nitrogen Inflators

With its young, experienced and dedicated personnel; Nitromac's mission is to supply the highest quality designed and patented under car equipment with high manufacturing technology available.

From premises located in Izmir/ Turkey, company exports %80 of its production to 56 countries in regular basis and 62 countries in total.

Nitromac has CE, ISO 9001:2008, OHSAS 18001 certificates and 4 dierent type of rim repair machine patents.

#### **WA3020**

#### NEW GENERATION 3D WHEEL ALIGNMENT SYSTEM

#### **Specifications:**

- High speed precise wheel alignment
- Windows 10 operating system
- Standard 44.000 vehicles data base
- Standard wireless remote control to control all settings
- 3D real-time measurement and reporting with printer

- Clear wide-angle professional camera eliminates the need for elevator
- Precise measurement up to 16 meters distance thanks to high resolution
   (fast and clear measurement of long chassis vehicles such as Sprinter,
   Crafter, Master)
- Gives the best results without being aected by daylight
- Cross measurement and vehicle chassis alignment measurement capability
- Animated display of all vehicle information (Rot setting features, tire pressure details, 3D animated graphics)
- Auto data and Nitromac data base to update vehicle information at the same time on all devices around the world.
- Ability to manually add and save unlimited vehicle model and factory values, store in memory by uploading customer information
- Option to reflect the screen on tablets and mobile devices as an option
- Always be able to adjust steering angle without error
- Double-tie clamps can be used to attach the rim cover to the tire without removing it
- Optional web cam and light guidance for safe access to the station
- High quality graphics for precise and sharp adjustment
- 3 diferent measurement methods, program type selection, standard, fast or free choice
- 5 years free data base update with Key Card

- Camera column
- Cabin
- 32 "LCD screen
- Fast computer unit with Windows 10 operating system
- Anti shock targets
- 4 Multi-fit connection clamps
- Steering lock
- Brake locking device
- Mechanical rotary table
- Inkjet printer
- Wireless remote control
- Wifi

# **OPTIONAL ACCESSORIES**

- Web cam
- LED warning panel
- Tablet connection system
- Optional LCD multi-screen
- Mechanical sliding table

- Clear wide-angle professional camera eliminates the need for elevator

# **OPTIONAL ACCESSORIES**

- Web cam
- LED warning panel
- Tablet connection system
- Optional LCD multi-screen
- Mechanical sliding table

#### Contactless wheel aligner for the pit

- -Contactless measurement and adjustment
- -Measures cars with wheelbases from 2 up to  $3.5 \text{m}^{**}$  (from 80 inches up to 135 inches)
- -Automatically rotating rear posts that are adaptive for different wheelbases
- -Installation of wheel adapters or any other equipment on wheels is not required

#### **Machine vision systems**

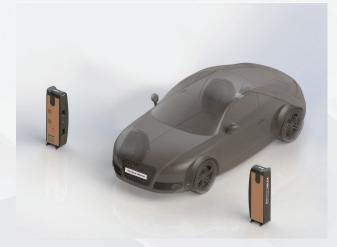

- -Measuring in a matter of seconds;
- -Precise industrial cameras;
- -Structured light projection systems;
- -3D scanning of each wheel in real-time;

#### Posts of the machine vision systems

- -Posts are equipped with the machine vision systems and projection system;
- -Robust design;
- -Posts can be adapted for individual features of your workplace;
- -Rotating mechanism allows measuring cars with different length without moving the posts sideways.

#### Utilizes the MOTOR Driven™ database

- -The software utilizes the latest version of the complete US local market vehicle MOTOR Driven™ database:
- -The choice of a vehicle model by its VIN eliminates operator error when choosing a specification;
- -New illustrated OEM instructions for adjustment procedures;
- -A new VIN bar-code reader time-saver option is available.

#### AJ1800 AIR JACK

#### **Specifications:**

- High speed precise wheel alignment
- Windows 10 operating system
- Standard 44.000 vehicles data base
- Standard wireless remote control to control all settings
- 3D real-time measurement and reporting with printer

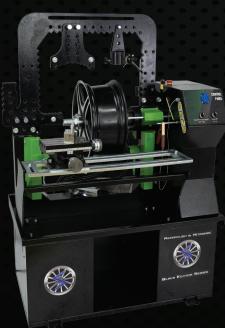

Capacity	2000kg
Lifting height	530mm
Minimum height	110mm
Lifting time	16 sec

3 phase - single phase 380V - (optional 220V)

Lengt 2000mm

Width 1800mm

460kg

### **SL30**

#### **ON-SURFACE SCISSORS LIFT**

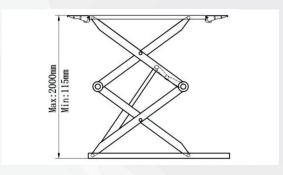

Hydraulic safety locks system instead of the mechanical safety locks, the S300 is equipped with the safety stop device at the height of 300 mm, both control buttons are needed to lower down the lift from 300 mm to ground with tone alarm for safety.

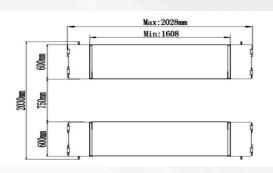

#### **Specifications:**

- Lifting capacity: 7,000 lbs.
- Electric-air control operation system.
- Hydraulic self lock system.
- 2-Dual synchronous cylinders are applied to assure the lifting level on both platforms.
- Hydraulic system with dual hydraulic solenoid valve control to assure the lowering speed would not be affected by the loading weight.
- Low profile design, the lowest height is only 115 mm.
- The safety stop device at the height of 300 mm, both control buttons are needed to lower down the lift from 300 mm to ground with tone alarm for safety.

Capacity 3500kg Lifting height 2000mm Minimum height 115mm Lifting time 24 sec 3 phase - single phase 380V - (optional 220V) Lengt 2028mm Width 2030mm Weight 660kg

### **SL550**

#### **ALIGNMENT SCISSORS LIFT**

#### **Specifications:**

- 2-dual synchro
- Lifting capacity: 12,000 lbs.
- Dual synchronous cylinders are applied to ensure the lifting level on both runways.
- Adjustable locking bars. Each locking is adjusted by screw, and it is easily to level the runways.
- Mechanical safety device. A simple foot operated safety lock release is Located on either side of the lift for operator convenience.

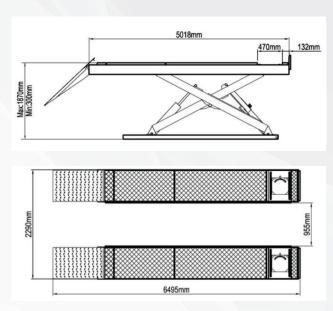

The safety locks engage automatically anytime the lift is raised.

- Maximum strength: The X serial scissors lifts use 150\*75 tube and adding two additional reinforcement "ribs" underneath each runway, this assures that the runways remain level during alignment process.
- Integrated rear slip-plates.
- Electric/Hydraulic power system. The system is operated by easily control.nal Jack and Turnplate.

This S350F is a true space-saving scissors car lift, when you don't use the lift, it just hide into the ground. Unobstructed access points for easy entry and exit front, rear and both sides to increase work space below the lift and around the runways. The Lift of platforms are designed to be extended, it is suited for most of cars.

Capacity	5500kg
Lifting height	1870mm
Minimum height	300mm
Lifting time	44 sec
3 phase - single phase	380V - (optional 220V)
Lengt	5018mm
Width	2290mm
Weight	1570kg

### **SL40**

### WIDER & STRONGER MODEL FLOORPLATE CHAIN-DRIVED LIFT

Nitromac introduces a revolutionary double lock system installed in both columns.

This new lock system incorporates two locking mechanisms for added safety.

The double lock system is automatically activated as the lift is raised.

#### **Specifications:**

- Lifting capacity: 9,000lbs.
- Electrical control operation system, high limit device.
- Dual hydraulic cylinders, designed and made on US standard, high quality NOK seals.
- Every cylinder has passed the 25Mpa test.
- Super symmetric arms design with three-stages front arms and two-stages rear arms. Symmetrical or asymmetrical lifting function, suitable for all kinds of vehicles.
- Screw and stackable adapters design of rubber pad with 3" Stackable adapters to adjust the lowest height in speedy.
- · Automatic arms restraints.
- Self-lubricating UHMW Polyethylene sliders and bronze bush.
- Single-point safety release, and dual safety design.
- 3/8" aircraft quality cable is used for synchronization.

Capacity 4500kg

Lifting height 2095mm

Minimum height 100mm

Lifting time 65 sec

3 phase - single phase 380V - (optional 220V)

Lengt 3060mm

Width 2850mm

Weight 460kg

Electric control system operation, it is more convenient to use

Pneumatic control unlock

Adjustable drape

The chain overhand protection device

Single-point safetyrelease allows technician to easily release both columnlocks from one column

Automatic arms restrain

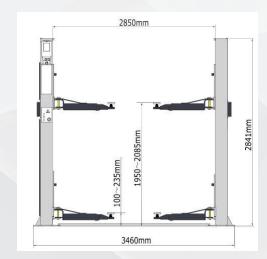

Supersymmetric arms design with three-stages front arms and two-stages rear arms. Symmetrical or asymmetrical lifting function, suitable for all kinds of models.

Double screw support pad, can quickly adjust the supporting height

Screw and stackable adapters design of rubber pad with 3" Stackable adapters to adjust the lowest height in speedy.

## **PS26**

#### 9" - 26" NEW MODEL AUTOMATIC TYRE CHANGER

#### **Specifications:**

Tilt-back tyre changer with right helper arm

The streamlined design makes machine more attractive

Composite body designed to reduce wobble Aluminum valve
with stainless rod

Bead breaker cylinder with tower spring

Drawer pedal assembly makes after
sale service easier

optional blaster

Clamping Capacity	9″ -26′
Max. Wheel Weight	75kg
Max. Wheel Diameter	43′
Hydraulic Unit Motor	1,1kw / 380V (optional 220V
Rotation Speed	6 - 16 rpm
Operating Pressure	8 - 10 bar
Bead Breaker Force	6000 N horizontal-3000 N vertical arm
Packing Dimensions	1150x1000x1900h mm

**Gross Weight** 

265kg

Embeded plastic cover for clamping jaws.

Protect rim from damage and sliding.

Demounting head is made of 2Cr13 materials with good performance.

Reset spring makes operation easier.

STANDARD ACCESSORIES

380V two-speed motor make work more efficient

Casting support of turn table cylinder with better structure and performance.

Bead breaker cylinder with tower-type spring makes breaking more powerful.

Washer for the demount head, Embeded cover for clamping jaw

Cover for bead braker. Avoid damage to the rims.

More convenient to work with right helper arm.

New designed lever according to human engineering.

Helper arm has the third press point and could work with

run-flat and low-profile tyres.
